

## MuteX Automotive - The New Standard of Luxury for Vehicle Interiors Automotive Specification Sheet

MuteX Automotive is an acoustic, soundproofing, and thermal insulation fabric that delivers luxury-quiet interiors and thermal comfort in a lightweight, flexible package. Integrates across headliners, floors, doors, trunks, hoodliners, and firewalls. Compliant to FMVSS 302.

### VEHICLE SECTION DEMO (3D)

### PERFORMANCE HIGHLIGHTS

- Lightweight 0.24 lb/ft<sup>2</sup> for efficiency and handling.
- Adhesive-backed EZ Stick option for rapid installation.
- Patented echo and backwave frequency control improves speech clarity and reduces cabin reverberation.
- Thermal resistance verified to ASTM C518; compliant to FMVSS 302.

### ROI COMPARISON (FELT OR FOAM)

Category	MuteX Automotive	Traditional Felt / Foam
Weight	0.24 lb/ft <sup>2</sup> (light and consistent)	Heavier or inconsistent
Install	Single layer; PSA option	Multiple layers; adhesives
Thermal	Included (ASTM C518)	Minimal or variable
Durability	Flexible backing; robust	Compression set risk
